

ABM's solutions and services swirling in the air of information technology is continuously taking small steps cum bigger transformations to facilitate e-governance.

Recently, another small victory was made by making mobile App for MCGM which is for its employees - 'MCGM Leave App'. It is very simple and free android based application to avail official Leave and Permission. The Leave Application facilitates a better interactive, intuitive GUI based Leave and Permission Application submission experience by Android based mobile users.

Such Apps may be small but are the useful if we look at it features like it supports paperless office, increases the productivity of the MCGM Employee/organisation, sharing of leave Information at very fast and can be utilised anywhere anytime. Although it took almost 4 months to complete this app but it has now been made live on 2nd March 2017

This project was led by Vishal Bhatnagar, SAP-Delivery Head and its team - Movin Joseph - Project Manager, Murali Krishna Takkallapati - Senior Project Lead, Kiran Darekar - Sr. Android Developer, Dhaval Gulhane - Android Developer, Sumit Goriwale - Technical Consultant Java & Kunal Pawar - Associate Consultant SAP.
